2) Experiment-3
Date: 25/07/26 Experiment ON CISCO PACKET TRACKER

3a) Analyse the behaviours of network devices using CISCO PACKET TRACER Simulator :

Hub:

1) From the network component box, click and drag and drop a) 4 Generic PC and One HUB

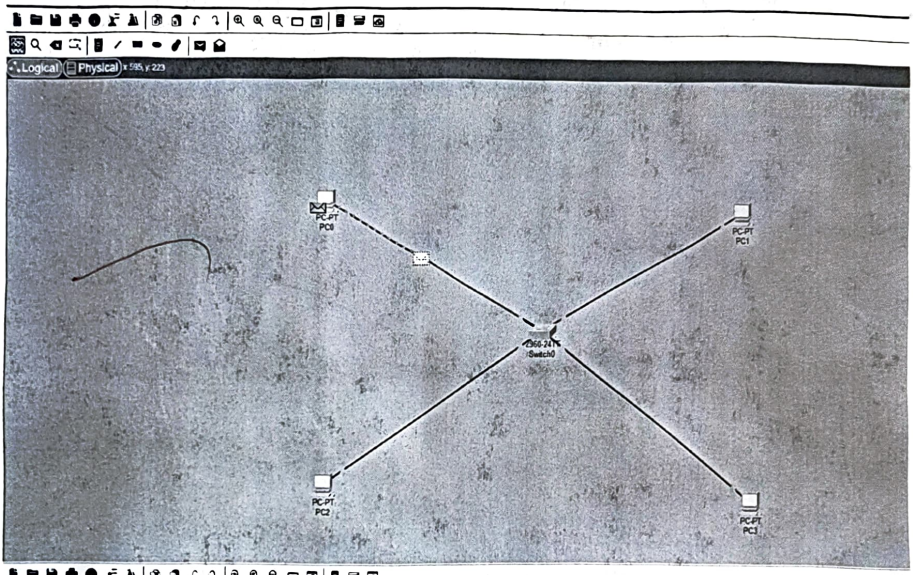

b) 4 Generic PC and One Switch

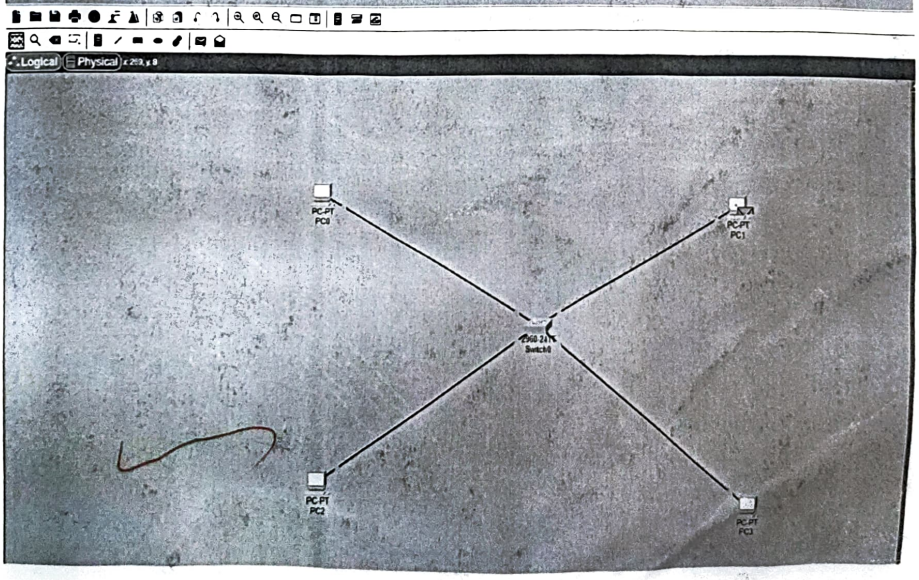

2) Click on connections

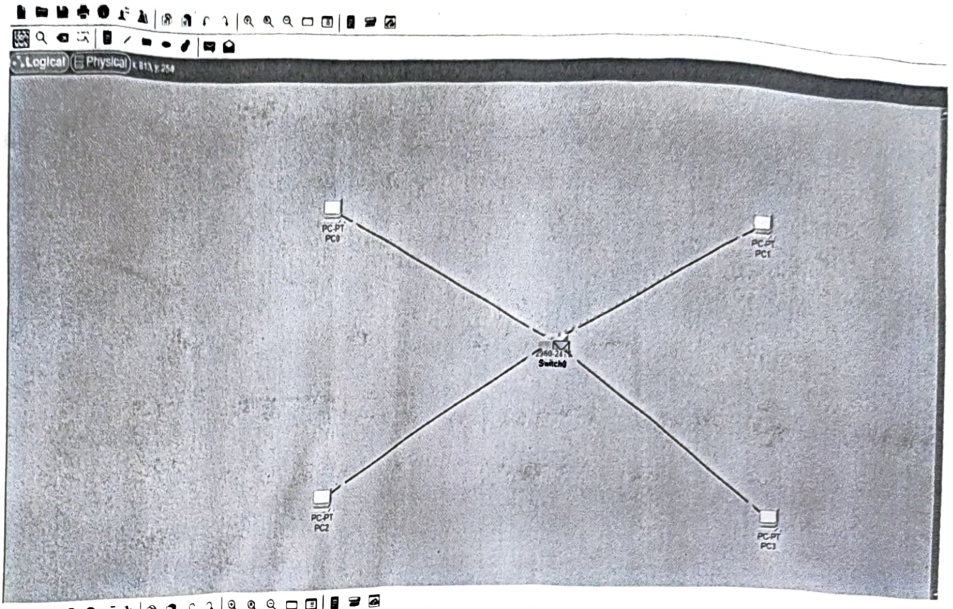

3) Click the PC connected to hub and change the IP configuration

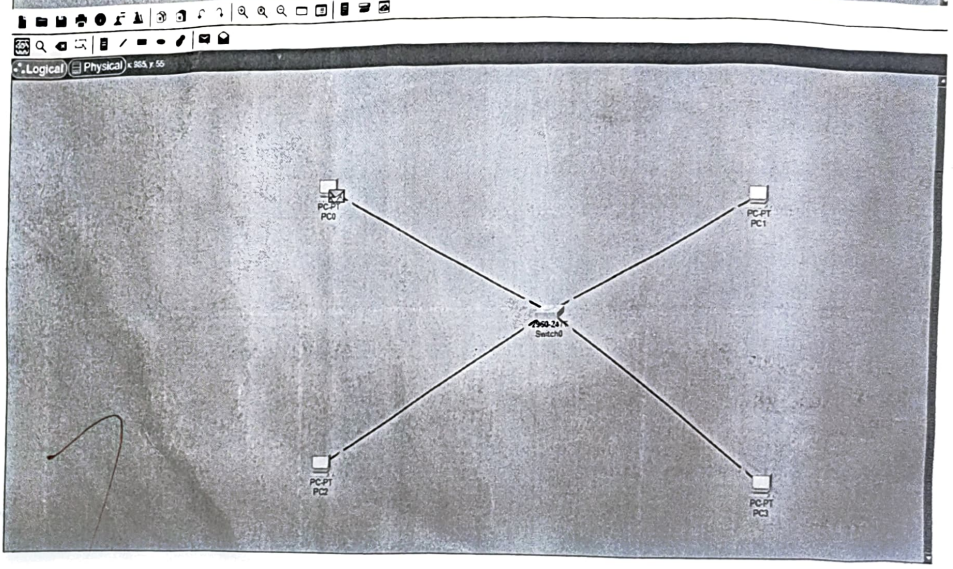

4) Observe the flow of PDU from source PC to destination PC.

Switch:

Result:

Thus to Design a simple network with multiple nodes and connect via networking devices available in library is implemented successfully.
